Aigialos Luxury Traditional Settlement

Descriere Aigialos Luxury Traditional Settlement 5*

The Aigialos Collection consists of sixteen, renovated neoclassical houses that were originally the fine homes of the islands noble captain families. The architecture and design of the houses bring to life the traditional way of life of the islands nobility. Restored to perfection by master masons using local volcanic stone and coloured lime plaster, the houses are linked by cobbled walkways. Situated on the rim of the caldera, sheer cliffs that rise from the sea, the hotel overlooks the islands famed volcano.
